I-11 is a proposed interstate freeway, but what other transportation facilities might share space with this 2,000-foot corridor?

Freeway

2000' Corridor

400’ Right-of-Way Footprint

Note: Additional freeway related improvements could include frontage roads, drainage, maintenance roads, sound walls, etc.

Freeway/Rail

2000' Corridor

500’ Right-of-Way Footprint

Note: Additional freeway related improvements could include frontage roads, drainage, maintenance roads, sound walls, etc.
